

Dear Valued Customers,

TAIHO KOGYO CO.,LTD.
January 30th, 2009

Announcement of New Item M141A-025 ~150
(Main Metal for Mitsubishi 4G, 4D engines with Fluctuating Flange Thickness)

We are happy and proud to announce our new item M141A (sizes 025 to 150) which has been heavily requested from many regions in the world.

M141A-025~150 is a different item from M113A3-025~100 which already exists. M141A has a flange with fluctuating thickness as the sizes differ, but M113A3 has a flange with fixed thickness.

Taiho New Part Number : M141A

Sizes : 025~150

Engine Type : Mitsubishi 4G51,G51B,4G52,G52B,4G53,4G54,4D55,4D56

Prices : Same as M113A3

Orders from : February 2009 (June 2009 Shipment)

※M141A-STD will not be on sale, because the product is same as M113A3-STD.
Also, M113A3-STD~150 will remain available for sale.

We hope this will not confuse your sales and orders.
If there are any uncleared points, do not hesitate to contact your trading company.
